

Smart Lock

Premium Add-on device for your home

A secure, versatile entry solution with Mifare card, password, fingerprint, and APP access. Enhanced with dummy password protection and a 100-fingerprint capacity, this lock keeps you in control.

Doorbell alerts go straight to your phone, and a USB backup powers through any outage. Effortless entry with just a touch; welcome to the future of home security.

Features

- Mifare-1 proximity card, password, fingerprint and APP four unlocking modes
- It can add dummy passwords before and after the valid password
- Maximum capacity of 100 fingerprints
- Push the doorbell to the App (Added 'notifications' for clarity.)
- Provides USB interface for backup power supply
- Touch the numeric keys
